

How To Add A Roommate And Verify A Group

You've taken some time to communicate with your classmates and you've found your roommate. Now it's time to properly pair in the system. Follow these steps to set up your group, designate the person with the earliest appointment to be your group leader, and earn "Verified group" status.

6 Steps [View most recent version on Tango.us](#)

STEP 1

Roommate With The Earliest Appointment Sends an Invite To Their Roommate.

Make sure that both parties are not a part of any group. Oftentimes, students will accidentally place themselves into a group by themselves, making them unsearchable. If you are in a group that is not verified, all parties should delete their groups and follow these steps.

1. Compare your housing appointment times and determine who has the earliest appointment.
2. The person with the earliest appointment time should follow this path: Log in to Housing Portal> Select Roommate Search> Select Search For Roommate By Details and enter your roommate's X-Number (Capital X, no dash, no space **Example: X12345678**).
3. Click **Add to group**. This will send an invite to your roommate.

STEP 2

Reviewing Roommate Invitations

Once a request is sent, you will see the name of your requested roommate listed under **Outgoing Requests**. The intended roommate will receive an email notifying them of this request.

The screenshot shows a web interface for reviewing roommate invitations. On the left, there are three green checkmarks indicating progress: 'Housing Agreement (Under 18)', 'Roommate Search', and 'Application: Next Steps'. The main content area is divided into two sections. The top section displays the profile of 'Peter Venkman .PortalX (Group Leader)' with details: Age: 17, Classification: Freshman Queens, Gender: Male, and Description: (blank). A 'View Profile' button is to the right. Below this is the 'Outgoing Requests' section, which contains a red-bordered box with the details of an outgoing request: '**.PortalX**', Age: 21, Classification: Freshman Queens, Gender: Male, Description: (blank), and Expiry Date: 5/29/2022 14:32. A 'Cancel' button is to the right of this box. At the bottom of the main content area is a red 'Save & Continue' button. The footer of the page is a red bar with the text 'The Office of Residence Life' and '8000 Utopia Parkway'.

STEP 3

Receiving Roommate Takes Action To Accept the Request

1. The person being invited to the roommate group should follow this path: Log Into Housing Portal> Select Roommate Search
2. Confirm the name of the person inviting you to the group and click accept.
3. You can repeat this process to add a third roommate to your group.

IMPORTANT ROOMMATE PAIRING CONSIDERATIONS

This section of the portal remains open at all times to make adjustments. We encourage you to finalize your roommate pairing(s) prior to self-selection.

Once you are in a room it is not possible to add a new party to your group and then place them. Roommate pairing must be completed before you select.

The maximum room size is a triple, accordingly students can add a maximum of two roommates to their group.

NOTE: Students at St. John's can only fill a bedroom space, they cannot fill an entire suite.

Students seeking a single bedroom should not pair with roommates.

STEP 4

Roommate Group Verification Achieved

You and your roommate(s) will now see the Roommate Group Verified Badge in your portals.

This means that the group leader can now place roommates into a bedroom space. If you don't have this badge, you have not properly paired as roommates.

Verified

Your roommate group has been verified.

STEP 5

Selection

When you pair as roommate(s) you are giving the other party control over your account for housing selection.

It is critical that the person with the **earliest housing appointment** be designated as the group leader. If you need to make a change to your roommate group's leader once verified, you can use the up and down arrows to change the designated leader within your group.

Pairing as roommates allows the party with the earlier time to enter the portal, seek out a vacant room (with enough beds), and then place themselves and their roommate(s) into the space.

Once placement is completed, the roommate with the later appointment will then wait for their appointment time, log into the portal and select **only** their meal plan.

The screenshot shows a web interface for selecting roommates. At the top, there are buttons for "Delete Group" and "Edit Group". To the right, there are links: "Search for Roommates by Details", "Search for Roommates by Profiles", and "Suggested Roommates". Below these, a list of users is displayed. The first user, "Peter Venkman .PortalX (Group Leader)", is circled in red. To the right of this user is a "View Profile" button and a downward arrow. Below this, a second user, ".Topher .PortalX", is listed. To the right of this user are buttons for "Remove Roommate", "Make Leader", "Send Message", and "View Profile", along with an upward arrow. A red arrow points from the "View Profile" button of the first user to the downward arrow. Below the list, there is a red text box with instructions: "Use the Up and Down Arrows to Promote or Demote a Group Leader. Make sure the group leader is the person with the earliest appointment time. This will allow the group leader to pull up roommates and place them into a room with adequate bed space."

STEP 6

Important Factors To Keep In Mind

Students seeking out singles should not pair with roommates as a single room has only one bed to fill. Singles are the most desired and least available room in our portfolio.

All students are encouraged to have more than one plan when making their selection during this live process. If the double you've dreamed of isn't available at the time of your appointment, which building and room type are you looking for next. Have a plan, a back up plan, and a backup to your backup plan so that you can make the most of your appointment time.

Created with *Tango*

Please note you can only fill an individual bedroom space, you cannot fill multiple bedrooms within a suite.

A WORD OF ADVICE FOR ROOM SELECTION

When placing roommates, do your best to make the best selection the first time. Look for rooms that have enough available beds to place roommates into. Pay careful attention to the Space available section of the **Room List**.

If you have second thoughts about a placement and want to redo your selection, please note that a group leader can only cancel their assignment, they cannot cancel their entire group's placement. In the event that your group wants to explore a do over, each roommate would need to contact our office to cancel their booking and then the group leader may log in and select again.
